DETAILED ACTION

Applicants' supplemental amendment dated 06/08/2005 and an English translation of the priority document have been received and entered. Claims 45 and 51 are remain pending in the application.

In view of the English translation of the priority document filed 06/08/2005, with respect to the rejections of claim 45 under 35 USC 102(e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground of rejection as follows:

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 45 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hashimoto, US Patent No. 5,442,470.

Claim 45 is anticipated by Hashimoto's figure 2 which discloses a display device comprising:

- . a mold frame (supporting 4);
- . a display panel (1);
- . a flexible printed circuit (FPC) (circuit board 3) inside a groove of the frame (4),

wherein a driver integrated circuit (IC) inherently forming over the FPC.

Art Unit: 2871

Even if the IC is not inherent formed over the FPC, it would have been obvious to one skilled in the art at the time of the invention was made to employ a bent FPC having an IC thereon as shown in figure 4, since it is a common practice in the LCD art in order to connect a display panel from a driving circuit.

Terminal Disclaimer

3. The terminal disclaimer filed on 03/31/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,587,166 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

4. Claim 51 is allowed.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2871

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
